

Teams Roll Out Schedule

Ministry of Central Services

The document below lists the Teams roll out dates as part of the overall Microsoft Office 365 project.

Last revised: April 2020

Last reviewed: April 2020

Next review: April 2021

Starting in the week of April 13, 2020, Teams will be implemented across government in a phased approach (ministry by ministry). This phased approach will take place rapidly to support the volume of people working remotely at this time.

Teams is an ideal environment for online collaboration with audio, video, chat, and file sharing capabilities. Teams is not replacing Skype for Business, or Web Ex.

Ministry	Date
Advanced Education	Tuesday, April 21, 2020
