Introduction

The information provided in this document is in summary form and was created by the Total Rewards, Compensation Branch, Saskatchewan Public Service Commission. Information in this document will be updated by the Compensation Branch as required.

Pension

All employees of the public service employed since October 1, 1977 participate in a defined contribution (money purchase) pension plan called the Public Employees Pension Plan (PEPP). The purpose of PEPP is to provide retirement assets to its members. Assets and expenses of the plan are managed solely in the best interests of the members.

Members of the Saskatchewan General Employees Union (SGEU) contribute 8.6% of salary to the Public Employees' Pension Plan (PEPP). Employees in Correctional Facilities contribute 9% of salary. These contributions are matched by the employer. The employee contributions are deducted automatically from your paycheque.

For employees in the Public Superannuation Plan (PSSP), the employee and employer contribution rate is 3.6%. In 1977, with the inception of the Public Employees Pension Plan (PEPP), this defined benefit plan became closed to new members. As a result of the closed status, the PSSP pension plan is commonly referred to as the "old plan".

Employees can make additional or voluntary contributions, subject to Canada Revenue Agency limits. A voluntary contribution is additional money that employees choose to contribute to PEPP to help build retirement income. These contributions are not matched by the employer.

If an employee was a member of another registered employer-sponsored pension plan, it may be possible to transfer monies and/ or pensionable service to PEPP, in accordance with a portability agreement. For more information, refer to the Human Resource Manual: [Section 711- Transferring Pension Through a Portability Agreement](#).

The plan provides significant flexibility through a number of investment options to reflect an individual's tolerance for risk including conservative, moderate, balanced, and growth portfolios, as well as a bond fund.

Detailed information is available on the PEBA website.

Insured Benefit Programs

The Government of Saskatchewan provides its employees with a variety of insured benefit programs to help protect their financial and health care security and that of their families.

Group Life

The group life plan provides life insurance benefits at a more affordable rate than individual life insurance policies.

Basic life insurance coverage is two times annual salary and employees must meet eligibility criteria to qualify. Eligible employees receive premiums for the first \$25,000 of coverage and are paid by the employer and the remaining premiums are paid by the employee through payroll deduction. As with the pension plan, employees have flexibility to purchase optional insurance (up to \$500,000 basic plus optional combined).

Detailed information regarding the Group Life Insurance Plan is available on the PEBA website.

Disability

The disability plan provides partial income replacement if the employee is disabled for a prolonged illness or disability as well as supportive rehabilitation services to assist return to work.

Members of SGEU union pay their premiums and are insured under the SGEU Long Term Disability Plan.

Information regarding the insurance plan is available by contacting the SGEU.

Dental Benefits

The Public Employees Dental Plan provides coverage for employees and their dependents for all preventative, routine, and major restorative dental services. Coverage is 100% reimbursable based on the Maximum Reimbursement Schedule. There is no cost to the employee to participate in the Dental Plan.

There is also up to \$1500 coverage for orthodontics per person (dependents under age 19) per year with a lifetime maximum of \$3000.

The premiums are employer paid, therefore, there is no cost to the employee. There is a six (6) month waiting period but once served, costs incurred in the first six months are eligible for reimbursement. Employees working less than full time must work a minimum of 37.5% of full-time hours to be eligible to participate in the plan and qualify for dental benefits.

Detailed information regarding the Public Employees Dental Plan is available on the PEBA website.

There is no cost to the employee to participate in the Extended Health Care Plan.

Employees working less than full time must work a minimum of 37.5% of full-time hours to participate in the plan and qualify for Extended Health Care benefits. Upon written request, the waiting period may be waived if the employee comes from a similar plan with an eligible employer. The plan provides for coordination with spouse's plans where they exist.
